FLUID tutorial - Step #2

1   Introduction

This tutorial will give you basics for making with Fluid interface several buttons on a window with FLTK.

2   Procedure

As similar to Tutorial #1, you may add the buttons with Fluid and add in the created code the call for the window (with show).

3   Conclusion

This show a simple example with 3 buttons, which were made with FLUID. The method is very similar to Tuto Step #1.

Et Voila, the final result.
